3.1. Variance from Selected Date

This section counts tickets where the Old Event Date falls within the seleted date range, while the New Event Date is outside it. This helps you quickly identify tickets moved outside the selected range, which contributes to the report's variance.

Example:

If the selected date range is **May 1 – 9**, tickets with New Event Date that fall outside this range will be included in the "Variance from Selected Date".

Member/Ref No.	Old Event Date	New Event Date	Member Win/Loss	Member Comm	Member Total

3.2. Repeated Tickets Tracking with Moved Event Dates

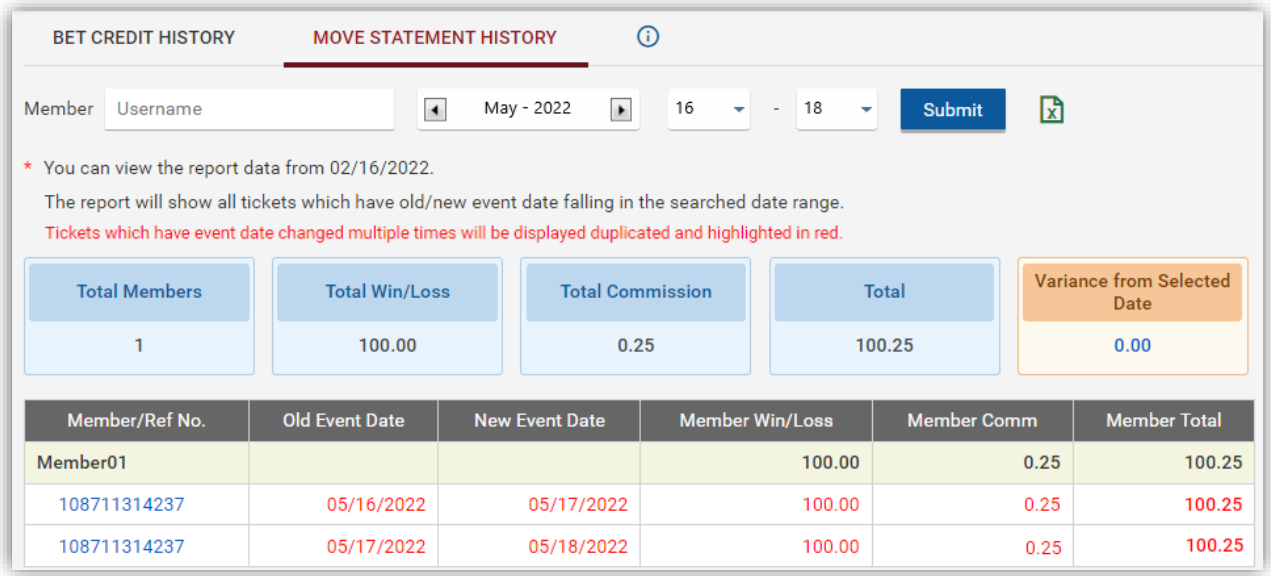

Any settled tickets with an event date has changed more than once will be displayed repeatedly and highlighted in red:

Member03			-7.79	0.03	-7.76
157648114162991119	05/01/2022	05/02/2022	-7.79	0.03	-7.76
157648114162991119	05/02/2022	05/03/2022	-7.79	0.03	-7.76

Whenever a ticket’s **Event Date** is moved, the **Win Loss Date** will be moved accordingly. Since **Member Win Loss Detail** report only displays information based on the **Win Loss Date**, a ticket may be excluded from the report if its **Win Loss Date** falls outside the selected date range.

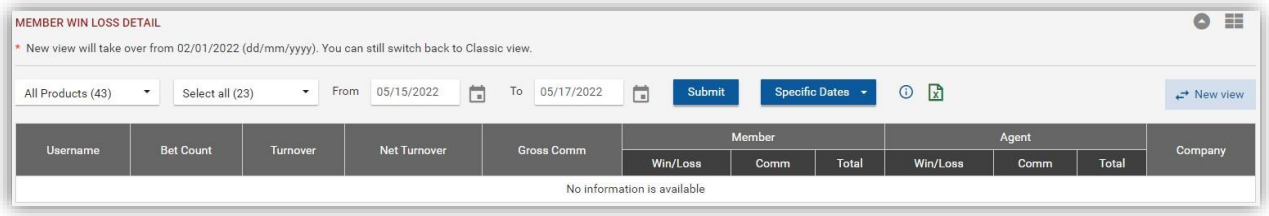

To track a ticket whose Event Date is moved, you can use Move Statement History.

Look at Member01’s Move Statement History from 05/16/2022 to 05/18/2022:

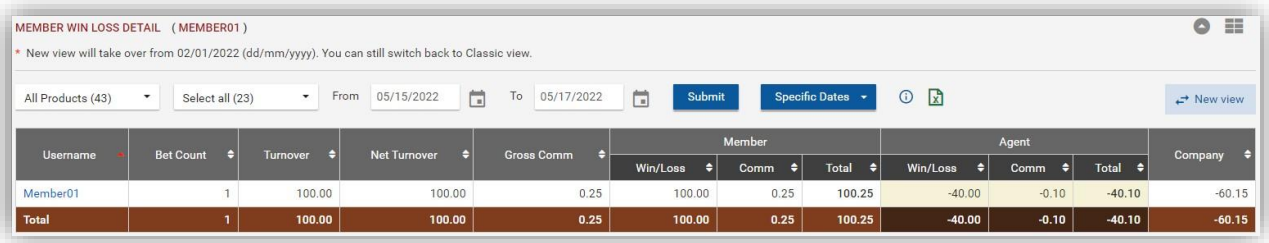

The **Event Date** of ticket **#108711314237** was moved twice from 05/16/2022 to 05/17/2022, and 05/17/2022 to 05/18/2022.

Since the **Event Date** of ticket **#108711314237** was moved to 05/18/2022, the **Win Loss Date** was also moved to 05/18/2022. Member Win Loss Detail report is based on **Win Loss Date**, as a result, the report from 05/15/2022 to 05/17/2022 did not include ticket **#108711314237**:

However, Member Win Loss Detail report on 05/18/2022 did include the ticket **#108711314237**:

4. Why can Member lose more than Given Credit?

Sometimes, it appears that Member loses more than his/her Given Credit and has negative Bet Credit, which is confusing. To find out the real reason, we can investigate using the Bet Credit History.

Looking at Member01's Bet Credit History from 05/09/2022 to 05/11/2022:

Action Date/Time	Win Loss Date	Ref No	Actual Stake	Win/Loss	Player Comm	Balance Change	New Balance	Given Credit	Bet Credit	Action

In the highlighted rows, we can see that these two tickets used to be settled as **Won**, but they were later changed to **Void**, resulting in the decrease in Member's balance.

⇨ To further investigate, we can track the tickets using **Ref No.**

Let's take a look at ticket **#108711312692**:

Action Date/Time	Win Loss Date	Ref No	Actual Stake	Win/Loss	Player Comm	Balance Change	New Balance	Given Credit	Bet Credit	Action
05/09/2022 01:23:47	05/11/2022	108711312692	200.00	0.00	0.00	-200.00	-1,246.29	10,000.00	8,753.71	Bet placed as running

- On 05/11/2022, the ticket was updated from **Won** to **Void**, as a result, the winning amount and commission of **198.5** were deducted from Member's Bet Credit.

Next, let's take a look at ticket **#108711312694**:

Action Date/Time	Win Loss Date	Ref No	Actual Stake	Win/Loss	Player Comm	Balance Change	New Balance	Given Credit	Bet Credit	Action

- On 05/09/2022, Member placed a bet with the stake of **200**.
- On 05/10/2022, Member won **392.5** (including the **200** stake and **0.5** commission).
- On 05/11/2022, the ticket status was updated from **Won** to **Void**, as a result, the winning amount and commission of **192.5** were deducted from Member's Bet Credit.

⇨ **Total Balance Change of two void tickets** = -198.5 – 192.5 = -391

Here is Member's Bet Credit before and after the winning amounts and commissions were deducted:

Action Date/Time	Win Loss Date	Ref No	Actual Stake	Win/Loss	Player Comm	Balance Change	New Balance	Given Credit	Bet Credit	Action
05/09/2022 01:26:39	05/11/2022	108711312699	47.00	0.00	0.00	-47.00	61.84	200.00	261.84	Bet placed as running

- **Bet Credit before deduction** = 16.7
- **Bet Credit after deduction** = 16.7 – 391 = **-374.3**

At the point when Member's Given Credit was **zero**, the past tickets were resettled **from Won to Void**, as a result, **391 (total winning amount and commission of two void tickets)** was deducted from Member's account, while his/her current Bet Credit was only **16.7**, hence the Bet Credit was negative.

⇨ Member did not actually lose more than his/her Given Credit, the loss was due to the resettlement of the tickets rather than losing the bets.
