Here is the corresponding data on **Agency Site**:

Username	Bet Count	Turnover	Net Turnover	Gross Comm	Member			Agent			Company
					Win/Loss	Comm	Total	Win/Loss	Comm	Total	
downline01	27	9,000.00	9,000.00	225.00	-500.00	95.81	**-404.20**	200.00	-24.00	**176.00**	228.20
downline02	32	5,000.00	5,000.00	125.00	-400.00	76.64	**-323.36**	160.00	-19.20	**140.80**	182.56
downline03	12	1,200.00	1,200.00	30.00	-300.00	57.48	**-242.52**	120.00	-14.40	**105.60**	136.92
downline04	3	400.00	400.00	10.00	-270.00	51.73	**-218.27**	108.00	-12.96	**95.04**	123.23
downline05	3	400.00	400.00	10.00	-200.00	38.32	**-161.68**	80.00	-9.60	**70.40**	91.28
Total	**77.00**	**16,000.00**	**16,000.00**	**400.00**	**-1,670.00**	**320.00**	**-1,350.00**	**668.00**	**-80.00**	**588.00**	**762.00**

Note: if you cannot use the chatbot, please contact your upline for support.

4.1. My Yesterday Win Loss

My Yesterday Win Loss displays your Win Loss amount of yesterday:

You can retrieve the data in one of the following ways (A or B):

A. Tap **My Yesterday Win Loss:**

B. Or type "**/ywl m**" and tap **Send**.

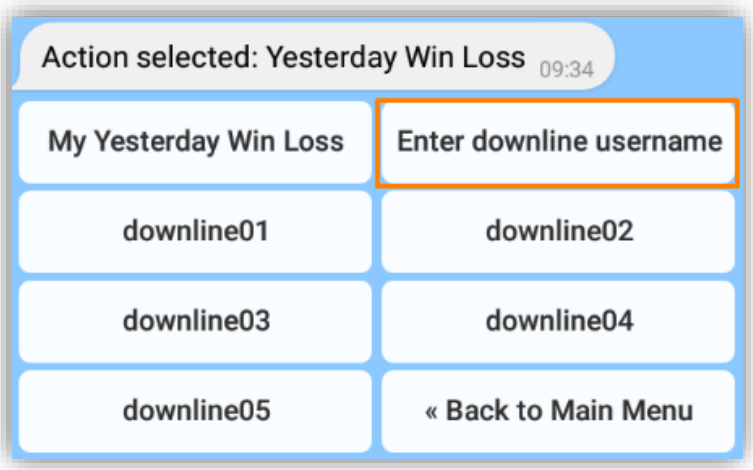

4.2. Enter downline username

You can view **Yesterday Win Loss** of a downline by entering his/her username:

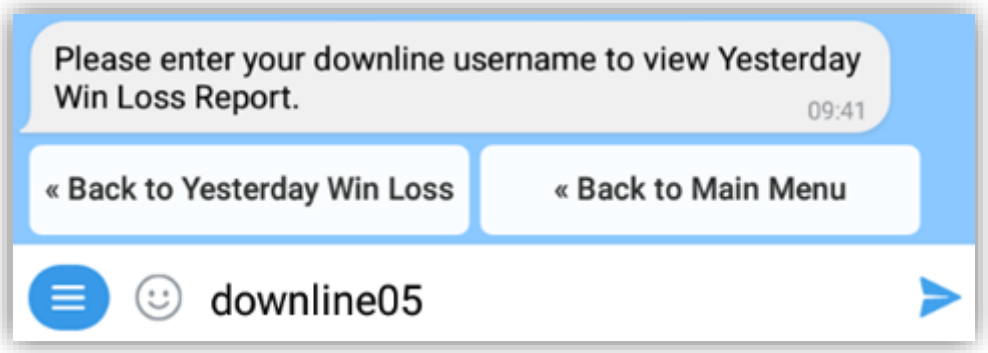

You can retrieve the data in one of the following ways (A or B):

A. Tap **Enter downline username**:

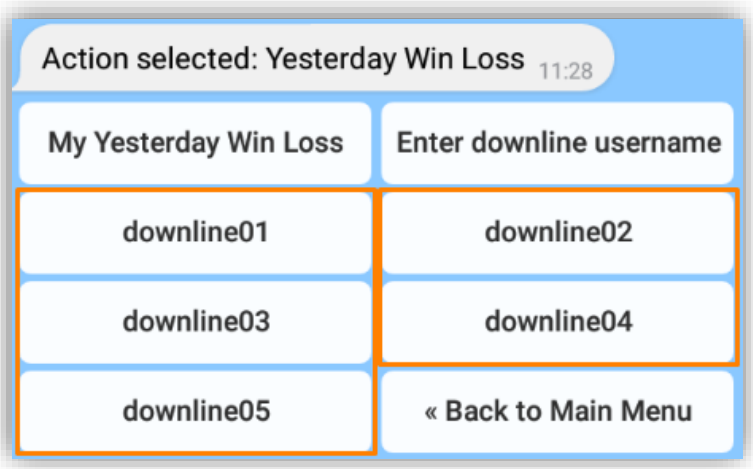

Enter the username of the downline you want to see and tap **Send**:

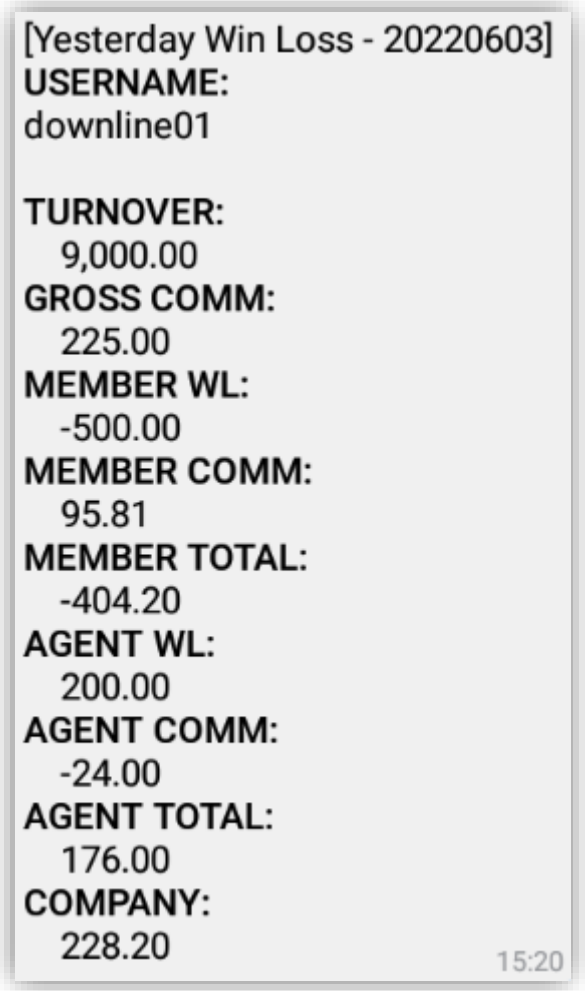

B. Or type "**/ywl <username>**" and tap **Send**.

4.3. View downline's Yesterday Win Loss on the top 5

The top 5 downlines with the highest Yesterday Win Loss (in absolute value) are listed in the highlighted options:

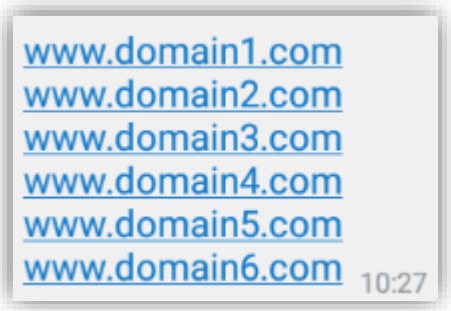

Tapping any of the downlines on the top 5 will show the details of his/her Yesterday Win Loss:

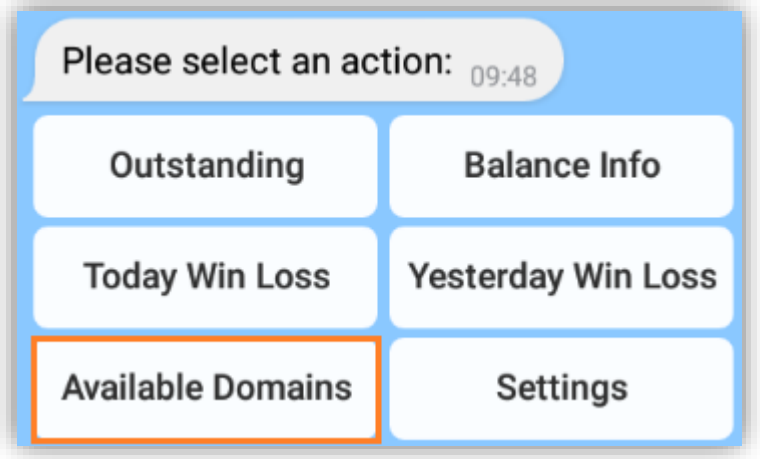

5. Chatbot > Telegram Chatbot > Available Domains

Available Domains shows the list of all available backup domains of Agency site.

You can retrieve the data in one of the following ways (A or B):

A. Tap **Available Domains**:

B. Or type "**/domain**" and tap **Send**

6. Chatbot > Telegram Chatbot > Customer Settings

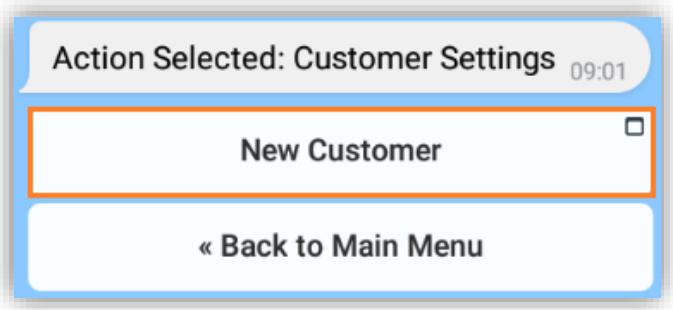

Customer Settings are the settings and configurations associated with the management of downline accounts.

6.1. New Customer

Telegram Chatbot allows you to create multiple downlines via Telegram.

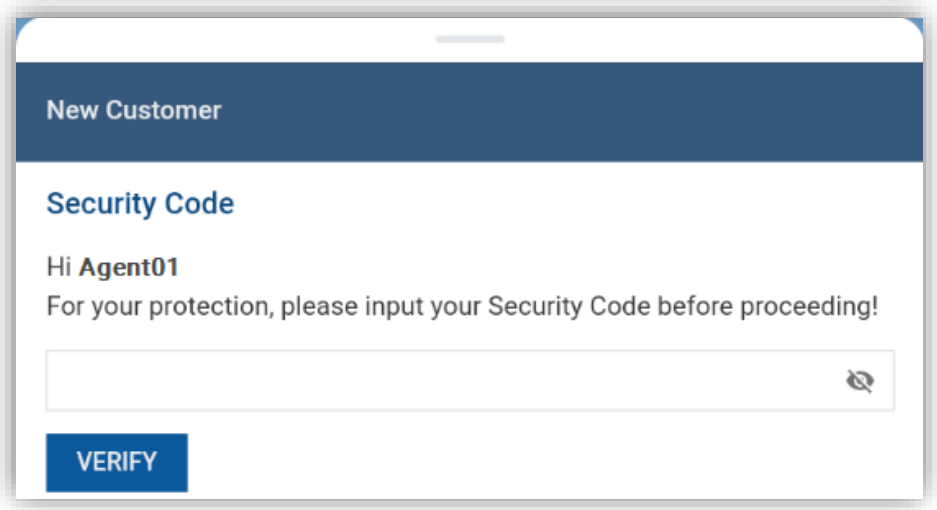

You can access New Customer function in one of the following ways (A or B):

A. Under **Customer Settings**, tap **New Customer**:

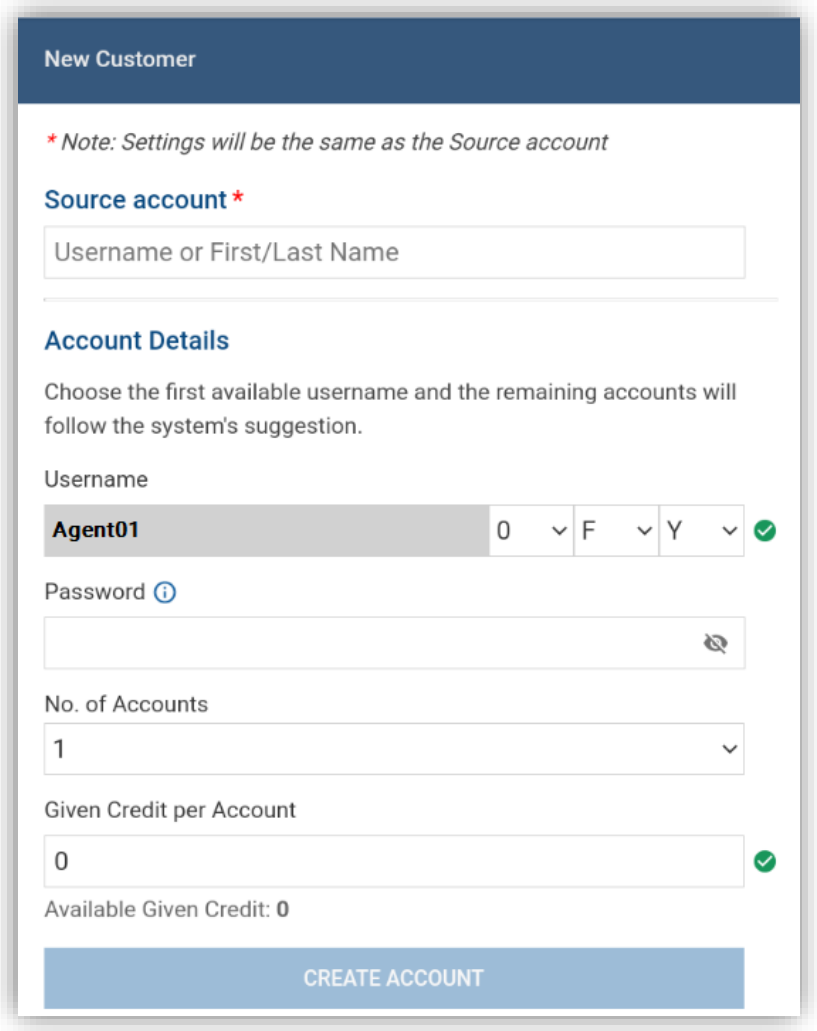

B. Or type **"/cs"** and tap **Send**

After that, input your **Security Code**:

Enter the following information:

- **Source account**: find a Source Account to copy settings for your new accounts.
- **Username**: choose the first available username and the remaining accounts will follow the system's suggestion. The system will prioritize the foremost available usernames, rather than following the continuing sequence from the first username.

  For example, given that:

  - Existing usernames: MEMBER001, MEMBER002, MEMBER005, MEMBER006, MEMBER011, MEMBER012.
  - Available usernames: MEMBER003, MEMBER004, MEMBER007, MEMBER008, MEMBER009, MEMBER010.
  - System will automatically suggest MEMBER003 first, however, the username you choose is **MEMBER008**, and you want to create 3 accounts.

- The resulting usernames will be **MEMBER008, MEMBER003**, and **MEMBER004**.

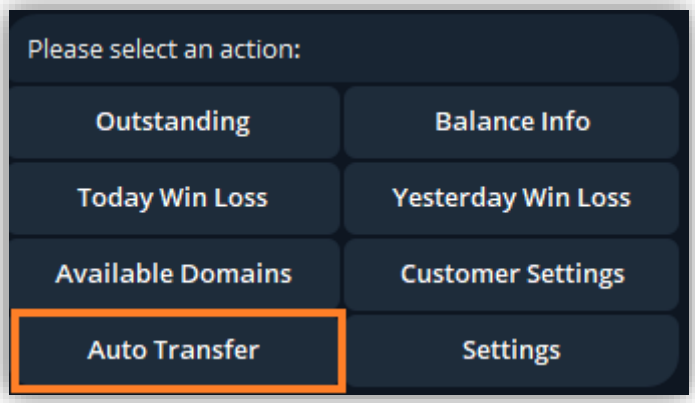

- **Password**: set a common password for all your new accounts. You can tap on **Password Requirement** ⓘ to see the password guideline.
- **No. of Accounts**: select the number of accounts that you want to create. You can create up to 30 accounts.
- **Given Credit per Account**: enter the Given Credit for each account.

After filling in the information, click **Create Account** to finish.

7. Chatbot > Telegram Chatbot > Auto Transfer

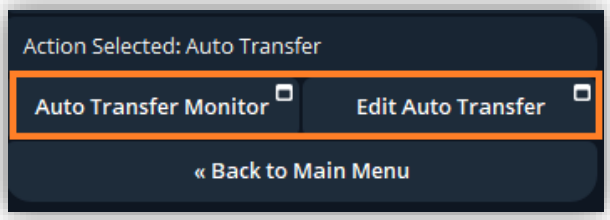

With Auto Transfer in Telegram Chatbot, you can easily view the Auto Transfer process and customize the Auto Transfer settings for your direct downlines.

To access, tap **Auto Transfer** on the Main Menu:

Or type "**/at**" and tap **Send**.

Then, choose an option based on your needs:

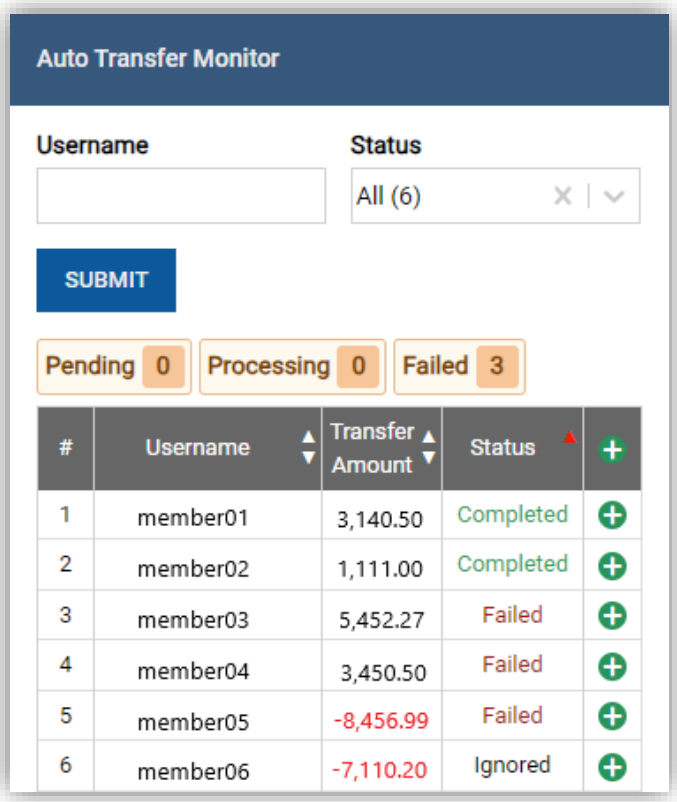

Note: If "**Auto Transfer**" is hidden, it means All Day Balance Transfer (ADBT) is enabled for your account. You cannot view or edit Auto Transfer settings in this case.

7.1. Auto Transfer Monitor

Auto Transfer Monitor allows you to view the Auto Transfer process in read-only mode. Here, you can keep track of your transfers without accidentally making changes.

Under **Auto Transfer**, tap **Auto Transfer Monitor**:

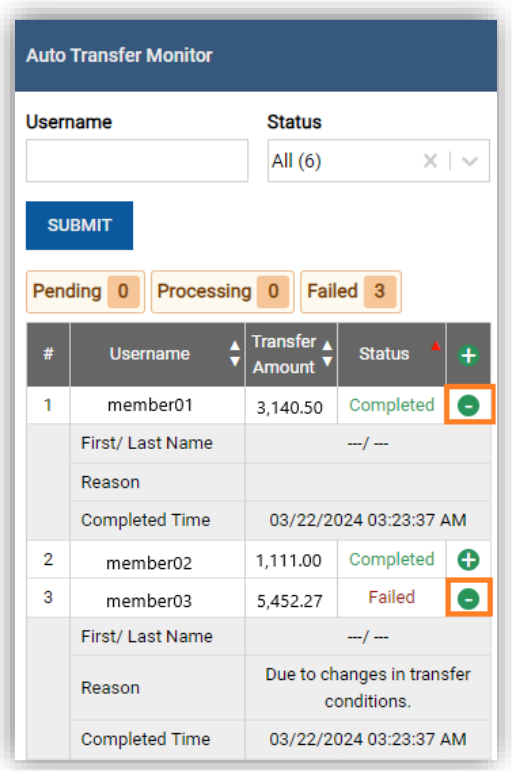

- The three transaction status tags in orange, namely **Pending**, **Processing**, and **Failed** display the count of corresponding transactions for all downlines.
- **Username**: username of the account associated with the transaction.
- **Transfer Amount**: the amount of balance being sent or received through a transfer.
- **Status**:
  - **Processing**: the Auto Transfer process is currently running on the account.
  - **Completed**: the Auto Transfer process has been successfully executed on the account.
  - **Failed**: the system could not complete the transfer for various reasons.
  - **Cancelled**: the Auto Transfer process is being canceled due to extended or delayed process/complete time.

– **Pending**: the Auto Transfer process is put on hold due to partial maintenance.

– **Ignored:** the Auto Transfer process is skipped because the account balance is 0.

For more details, tap ⊕:

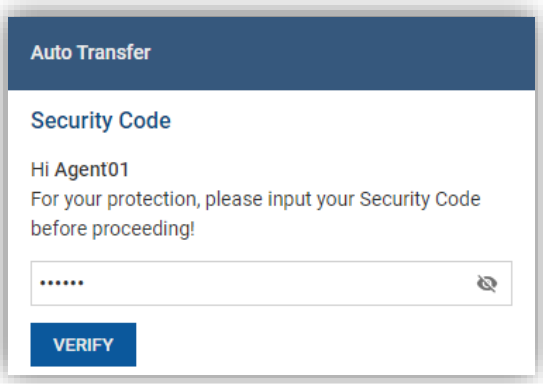

- **First/ Last Name**: first name and last name of the account associated with the transaction.
- **Reason**: describe the cause of Auto Transfer failure.
- **Completed Time**: the exact date/time when the Auto Transfer process is completed.

7.2. Edit Auto Transfer

Edit Auto Transfer allows you to enable/disable Auto Transfer and change the transfer schedule for your downlines. You can do this for one or multiple accounts simultaneously.

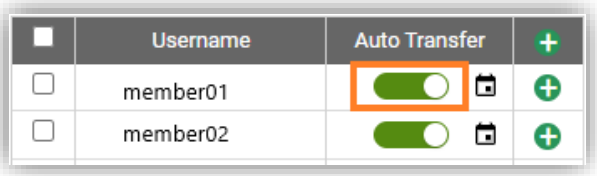

To access Edit Auto Transfer:

- Under **Auto Transfer**, tap **Edit Auto Transfer**
- Enter your **Security Code** to proceed

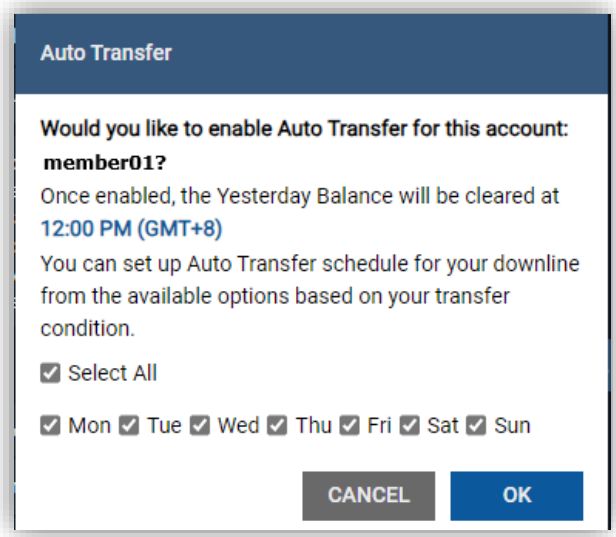

7.2.1 Enable/ Disable Auto Transfer

To enable/disable Auto Transfer, use the **Auto Transfer** toggle switch:

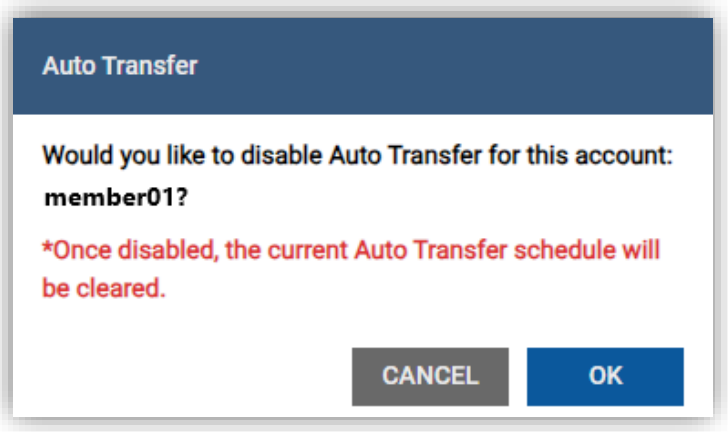

- **Enable Auto Transfer for an Individual Account:**

  – When enabled, set up the Auto Transfer schedule for the account by selecting available dates based on your transfer conditions.

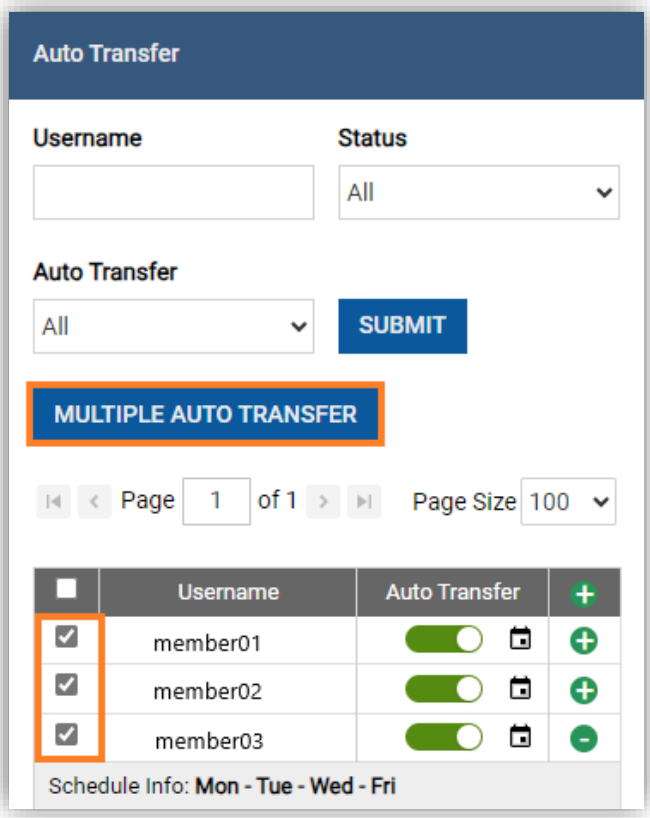

- **Disable Auto Transfer for an Individual Account:**

  – Disabling Auto Transfer clears the current schedule for the selected account.

- **Enable/ Disable Auto Transfer for Multiple Accounts:**

  – To enable/disable Auto Transfer for multiple accounts at once, select the desired accounts, then tap the **Multiple Auto Transfer** button:

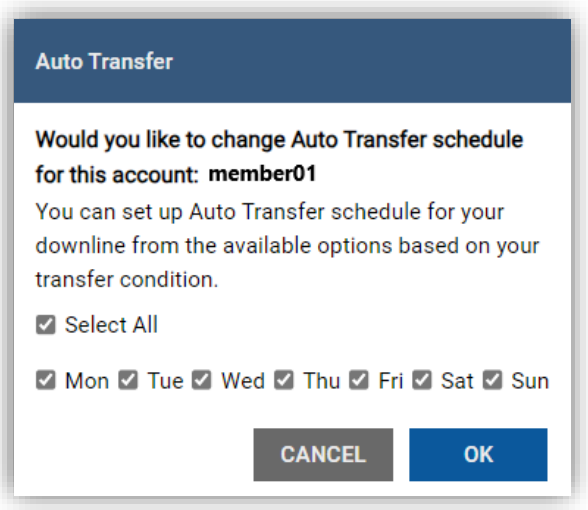

– You can either enable or disable Auto Transfer for all selected accounts. Alternatively, you can opt for a mixed of enabled and disabled accounts:

7.2.2 Change Auto Transfer Schedule

If Auto Transfer is enabled for an account, a calendar will appear next to the toggle switch. To change the Auto Transfer schedule:

- Tap the calendar
- Select the desired dates to define new transfer schedule. Alternatively, you can quickly select all dates by tapping on the "**Select All**" option.

- Once you've made the necessary changes, tap "**OK**" to save the new Auto Transfer schedule or "**Cancel**" to exit without changes.
