Potential Win Limit – Overview Guide

What is the Potential Win Limit?

The **Potential Win Limit** allows you to define a **daily maximum win amount** for each Member under your management.

- Apply to all **Sportsbook bet types**, **except Parlays**.
- You can configure the Potential Win Limit when creating a new member account in **Full Mode**, or when adjusting Sportsbook settings.
- Once the Member's **Potential Win** reaches or exceeds the limit, they will be **restricted from placing further Sportsbook bets**.

Where to Configure It

You can configure the **Potential Win Limit** in two places:

1. **Create New/ Edit Member**:
   Set the win limit directly during account creation.
2. **Edit Multiple Customer Settings**:
   Apply win limits in bulk across multiple accounts.

Where to Monitor It

Tracking and monitoring of Potential Win Limit is done under:

📍 Main Menu > Risk Management > Member Win/Loss Limit > Sportsbook Potential Win Limit

🔎 **For more details** on how to use the Member Win/Loss Limit section, please refer to the specific guides available in that module. This guide focuses only on the overview of the Potential Win Limit.
